

# PIERRE de FRANCE

## LIMESTONE QUERCY BLANC

This stone is predominantly light Beige and fairly uniform. However it has a wealth of detail: shells, hairlines, occasionally some fine cloudy veins in a tan yellow hue. It gives a cozy atmosphere in a rustic interior and ideal in contemporary homes when looking for a refined atmosphere. For use indoor and outdoor areas.

Available in bands at 12", 16" and 20" wide x random lengths up to 40" long. Also available in custom sizes and shape for special carving of fountains, fireplaces and other architectural challenging elements.
